ST FRANCIS CATHOLIC SECONDARY SCHOOL, LAGOS

The Jesuit-Run Catholic College

MUSIC

JSS ONE

FIRST TERM NOTES

2026/2027

SCHEME OF WORK

WEEK	TOPIC
1	Introduction to Music I (Meaning and Features of Music)
2	Introduction to Music II (Sound and other Elements of Music)
3	Musical Notation
4	Musical Clef and Staff
5	Great Staff and Ledger Lines
6	Musical Notes and their Values
7	Classification of Music
8	Uses of Music
9	Practical (Introduction to Recorder Playing)
10	Revision
11	Examination

WEEK ONE

Date	
Topic	**INTRODUCTION TO MUSIC I**
Objectives	At the end of the lesson the students should be able to: • explain the meaning of music • enumerate the differences between music and noise • enumerate the features of music
Insight	Music is a universal language
Key words/New terms	Music, Food for the soul, Universal language, Definite and Indefinite sound.
Application	• ***Medicine***: Music therapy in emotional and mental health. • ***Education***: Music enhances learning, improves memory, attention and language skills. • ***Psychology***: Music can help to manage stress and regulates emotions. • ***Sociology***: Music reflects cultural identity, history and social movement.
Summary	MUSIC stands for Many Unified Sounds Inspiring Communication. NOISE stands for Non-Organized Irregular Sounds Everywhere Noise is the direct opposite of Music
Students Engagement: **i. What have I learnt?** **ii. Skills Acquired**	
My Question(s)/Evaluation	
Action goal	

INTRODUCTION TO MUSIC

'**MUSIC'** stands for… ***Many Unified Sounds Inspiring Communication.***

'**NOISE'** stands for… ***Non-Organized Irregular Sounds Everywhere***

Music can be defined as the combination of sounds that are organized and pleasant to the ear. It can also be defined as the combination of pleasant sounds. Both music and noise are products of sounds.

DIFFERENCES BETWEEN MUSIC AND NOISE

MUSIC	NOISE
1. It is pleasant to the ear	It is not pleasant to the ear
2. It is organized	It is not organized
3. It inspires communication	It does not inspire communication
4. It is a form of entertainment	It is a form of pollution
5. It regular	It is irregular
6.	
7.	
8.	
9.	
10.	

Fill up the spaces with your own thoughts

FEATURES OF MUSIC

1. Music as a universal language
2. Music as food for the soul
3. Music as an aspect of culture
4. Music as an intellectual art
5. Music as a performing art
6. Music as a social art
7. Music as a scientific tool

PERSONAL EXERCISES

1. Highlight **SEVEN** positive character traits that one can learn through music.
2. Why do you think music is referred to as "***Universal Language***"?
3. "***Music is Scientific***" Briefly explain in your own way.

WEEK TWO

Date	
Topic	**INTRODUCTION TO MUSIC II**
Objectives	At the end of the lesson the students should be able to: • explain the meaning of sound • enumerate the different sources of sound (both natural and artificial) • explain the characteristics of sound • explain other elements of music
Insight	Sound is a wave in the air that is produced by vibration and it has certain characteristics.
Key words/New terms	Pitch, Harmony, Timbre, Intensity, Vacuum, Form, Melody, Dynamics and Tempo.
Application	• ***Physics***: Sound is studied in physics also. • ***Remote Sensing:*** Sound is the major tool used in the reconnaissance survey or deep-sea survey. • ***Engineering & Technology:*** Sound design influence the development of acoustic engineering and noise-cancelling technologies. • ***Environmental Science:*** Soundscapes in music help raise awareness about environmental issues. • ***Medicine:*** Sound waves from music are employed in ultrasound imaging.
Summary	Sound can be heard Sound cannot be transmitted through a vacuum
Students Engagement: **i. What have I learnt?** **ii. Skills Acquired**	
My Question(s)/Evaluation	
Action goal	

SOUND AND ITS CHARACTERISTICS

Sound is a vibration of air which is heard when produced. It is also a wave that is caused by a vibration of the air and can be heard.
Sound is produced when there is vibration which can be regular or irregular. This wave must travel through a medium (air) because the wave cannot travel through a vacuum.

SOURCES OF SOUND

Sources of sound can either be natural or artificial
Some examples of natural sources of sound are; raindrops, sound from wind, roaring of the thunder, human voice, etc. and examples of artificial sources of sound are; car honk, gun shot, and etc.

Fill up the table below with your own examples of sources of sound.

S/N	NATURAL SOURCES	ARTFICIAL SOURCES
1.		
2.		
3.		
4.		
5.		

PROPERTIES OF SOUND

- Sound is a product of vibration.
- Sound can be regular or irregular.
- Sound can be definite or indefinite.
- Sound can be reflected (Echo).
- Sound can be refracted when it's travelling between two different mediums.

CHARACTERISTICS OF SOUND

There are four characteristics of sound.

1. **PITCH**: This is the degree of highness or lowness of sound. It is how high or low the sound is.
2. **INTENSITY**: This is the degree of loudness and softness of sound. It can also be called the volume or dynamics of the sound.
3. **DURATION**: This is the degree of longness or shortness of sound. It is how long or short the sound is.
4. **TIMBRE**: This is the quality of the sound. This is the factor that distinguishes the sound of a musical instrument from another.

OTHER ELEMENTS OF MUSIC

Elements of music are components or factors that consist in music. Sound is the major element of music. Other elements of music include:

1. **TEMPO**: This is the pace at which music moves, based on the speed of the beat.
2. **RHYTHM**: This is the movement of music through time. It can also be defined as the flow of music.
3. **MELODY**: This is the main tune of a piece of music. it is the most important part of a song. A short melody line or a distinct part of a long melody line is called Motif. The highest point of a melody line is called Climax
4. **HARMONY**: It means playing different melodic notes to compliment the main melody line. Harmony can either be Dissonance or Consonance.
5. **DYNAMICS**: This is the volume of the sound of the music and the modification applied to it.
6. **TEXTURE**: This refers to the relationship between melody, rhythm and harmony in a piece of music. The texture of music can either be monophonic, homophonic, polyphonic or imitative texture.
7. **FORM**: This is the design or the structure of a piece of music or a musical composition.

WEEK THREE

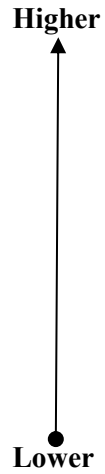

Date	
Topic	**MUSICAL NOTATION**
Objectives	At the end of the lesson the students should be able to: • explain the meaning of musical notation • enumerate the two kinds of musical notations • enumerate the technical names of solfa notes and musical alphabets
Insight	Notation is the representation of musical sound on paper.
Key words/New terms	Notation, Solfa, Staff
Application	• ***Data Visualization and Signal Processing:*** Musical notation concepts are applied in representing complex data and signal such as brain wave (EEG) seismic activities etc. • ***Education:*** Musical notation is adapted in language learning, pronunciation and intonation. • ***Computer Programming:*** In algorithm development and coding, some use musical notation principle to create syntax. • ***Medicine:*** Music therapy often uses musical notation to design and document therapeutic interventions.
Summary	Musical sound can be represented as solfa notation or staff notation. Solfa notes have degree names and technical names, e.g. ***doh = I = Tonic*** There are seven musical alphabets: A B C D E F G
Students Engagement: **i. What have I learnt?** **ii. Skills Acquired**	
My Question(s)/Evaluation	
Action goal	

MUSICAL NOTATIONS

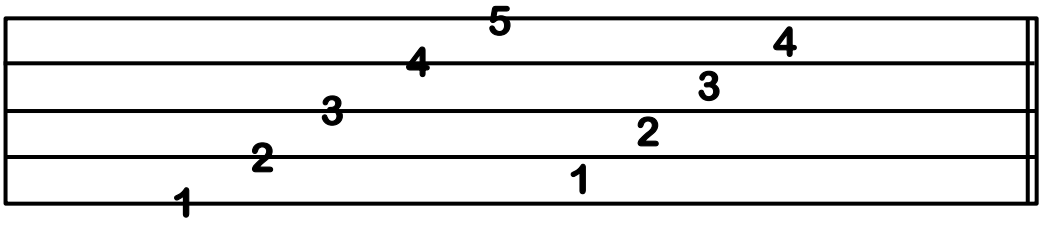

Musical notation refers to the way musical sounds are represented on paper. Musical notation can be divided into two: Solfa notation and Staff notation.

SOLFA NOTATION: This refers to the art of representing musical sounds on paper with seven letters. These seven letters are called solfa notes.
They are d, r, m, f, s, l, t. The solfa notes are preferably written in lowercases of alphabets because they are not just alphabets or letters but sound.

SOLFA NOTE	TONIC SOLFA	DEGREE NAME	TECHNICAL NAME
d'	do' or doh'	VIII or 8th	Octave or Double Tonic
t	ti or te	VII or 7th	Leading Note
l	la or lah	VI or 6th	Submediant
s	so or soh	V or 5th	Dominant
f	fa or fah	IV or 4th	Subdominant
m	mi or me	III or 3rd	Mediant
r	re or rey	II or 2nd	Supertonic
d	do or doh	I or 1st	Tonic

STAFF NOTATION: This is an art of representing musical sounds on paper with signs written on a staff. These signs are known as Musical Notes.
A staff is a rectangular box that consists of five horizontal parallel lines and four spaces. The lines and spaces are numbered from the bottom to the top. It is also called STAVE

NOTE: Redraw the diagram above into your manuscript 5 times

MUSICAL ALPHABETS
These are set of the first seven English alphabets (A B C D E F G) which are used to represent musical notes or letter-names. When the naming gets to letter G, it starts again from letter A.

WEEK FOUR

Date	
Topic	**MUSICAL CLEF AND STAFF**
Objectives	At the end of the lesson the students should be able to: • explain the meaning of staff • identify the clefs • draw treble staff with letter names • draw bass staff with letter names
Insight	Clef is a symbol written at the beginning of a staff to help to determine the pitch of the notes on a staff.
Key words/New terms	Clef, Treble, Bass, Movable clef and Unmovable clef.
Application	• ***Education:*** They help in cognitive development, learning aids and design of memory devices. • ***Technology & User Interface design:*** Concept of clef is used in synchronization and timing tools and also in audio editing software • ***Robotics and Motion Planning:*** Staff lines can be used as pathway layout for robotic movement. • ***Data Analysis:*** In infographics, staff lines can inspire data grid-based layout while clef can act as conceptual makers in hierarchical displays.
Summary	***Clef*** is a French word that means ***Key.*** It helps to determine the pitch of the notes on a staff. There are G-clef, F-clef and C-clef. Letter-names for treble staff are EGBDF and FACE Letter-names for bass staff are GBDFA and ACEG
Students Engagement: **i. What have I learnt?** **ii. Skills Acquired**	
My Question(s)/Evaluation	
Action goal	

MUSICAL CLEF AND STAFF

A clef is a symbol that is written at the beginning of a staff to determine the letter-name of the staff, the position and the pitch of the note on the staff. "clef" is a French word that means "***key***"
A clef is meant to perform the following functions:
To fix the letter-name of a stave
To fix the position and the pitch of musical notes on the staff.
There are three different types of clefs

1. G-Clef **2. F-Clef** **3. C-Clef**

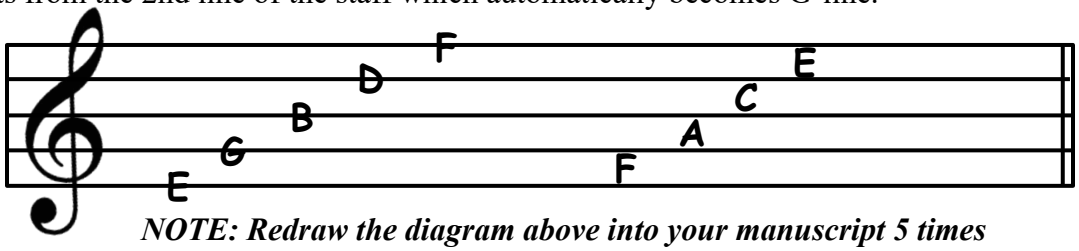

NOTE: Redraw the diagram above into your manuscript 5 times

G-clef and F-clef are both called IMMOVABLE CLEFS while C-clef is called MOVABLE clef

G-CLEF OR TREBLE CLEF

When it is written on a staff, the staff automatically becomes a Treble Staff. The loop of the clef starts from the 2nd line of the staff which automatically becomes G-line.

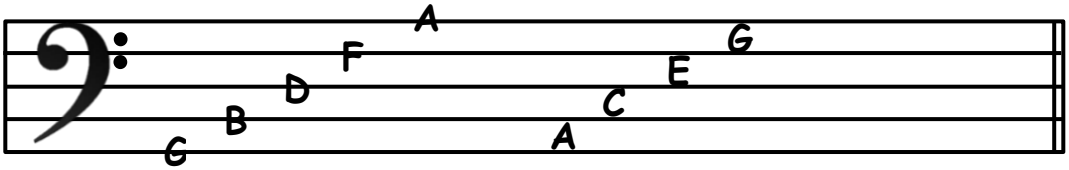

NOTE: Redraw the diagram above into your manuscript 5 times

The letter-names for the treble staff:
LINES: E G B D F (Mnemonics: **E**very **G**ood **B**oy **D**eserve **F**avour).
SPACES: F A C E (Mnemonics: **F**at **A**nimals **C**an **E**at)

F–CLEF OR BASS CLEF

When it is written on a staff, the staff automatically becomes a BASS STAFF. The fourth line which passes through the two dots in front of the curve automatically becomes F-line.

NOTE: Redraw the diagram above into your manuscript 5 times

The letter-names for the bass staff:
LINES: G B D F A (Mnemonics: **G**ood **B**oy **D**eserves **F**avour **A**lways)
SPACES: A C E G (Mnemonics: **A**ll **C**ow **E**ats **G**rass)

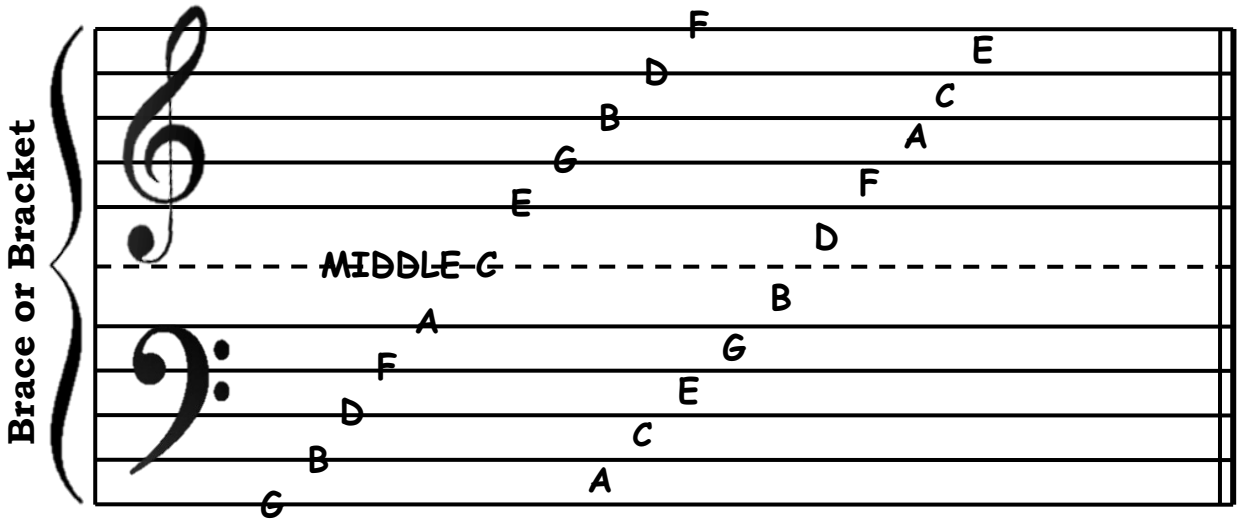

WEEK FIVE

Date	
Topic	**GREAT STAFF AND LEDGER LINES**
Objectives	At the end of the lesson the students should be able to: • explain the meaning of great staff and ledger line • draw a great staff with letter names • fix the letter names of ledger lines above and below treble and bass staff.
Insight	Great staff is the combination of treble staff and bass staff.
Key words/New terms	Grand, Brace, Middle C, Bracket etc.
Application	• ***Data Visualization and Graphing:*** Provides spatial framework and ledger lines as extensions • ***Mathematics:*** The staff can be compared to the coordinate plane while ledger lines are analogous to auxiliary lines. • ***Architecture:*** Standard reference lines and extension lines or additional guidelines. • ***Educational & Cognitive Framework:*** Structured learning models.
Summary	Great staff is also called Great Stave or Grand staff. It is the combination of treble and bass staff, joined together with a brace or bracket. The imaginary line in the middle of a grand stave is called Middle C
Students Engagement: **i. What have I learnt?** **ii. Skills Acquired**	
My Question(s)/Evaluation	
Action goal	

GREAT STAFF AND LEDGER LINES

A Great staff is the combination of a treble staff and bass staff which consist of eleven lines and ten spaces. It is also called GREAT STAVE or GRAND STAVE. The sixth line that demarcates the treble staff and the bass staff is an imaginary line called Middle C

A GREAT STAFF OR A GRAND STAVE WITH THE LETTER-NAMES

NOTE: Redraw the diagram above into your manuscript 3 times

LEDGER LINE

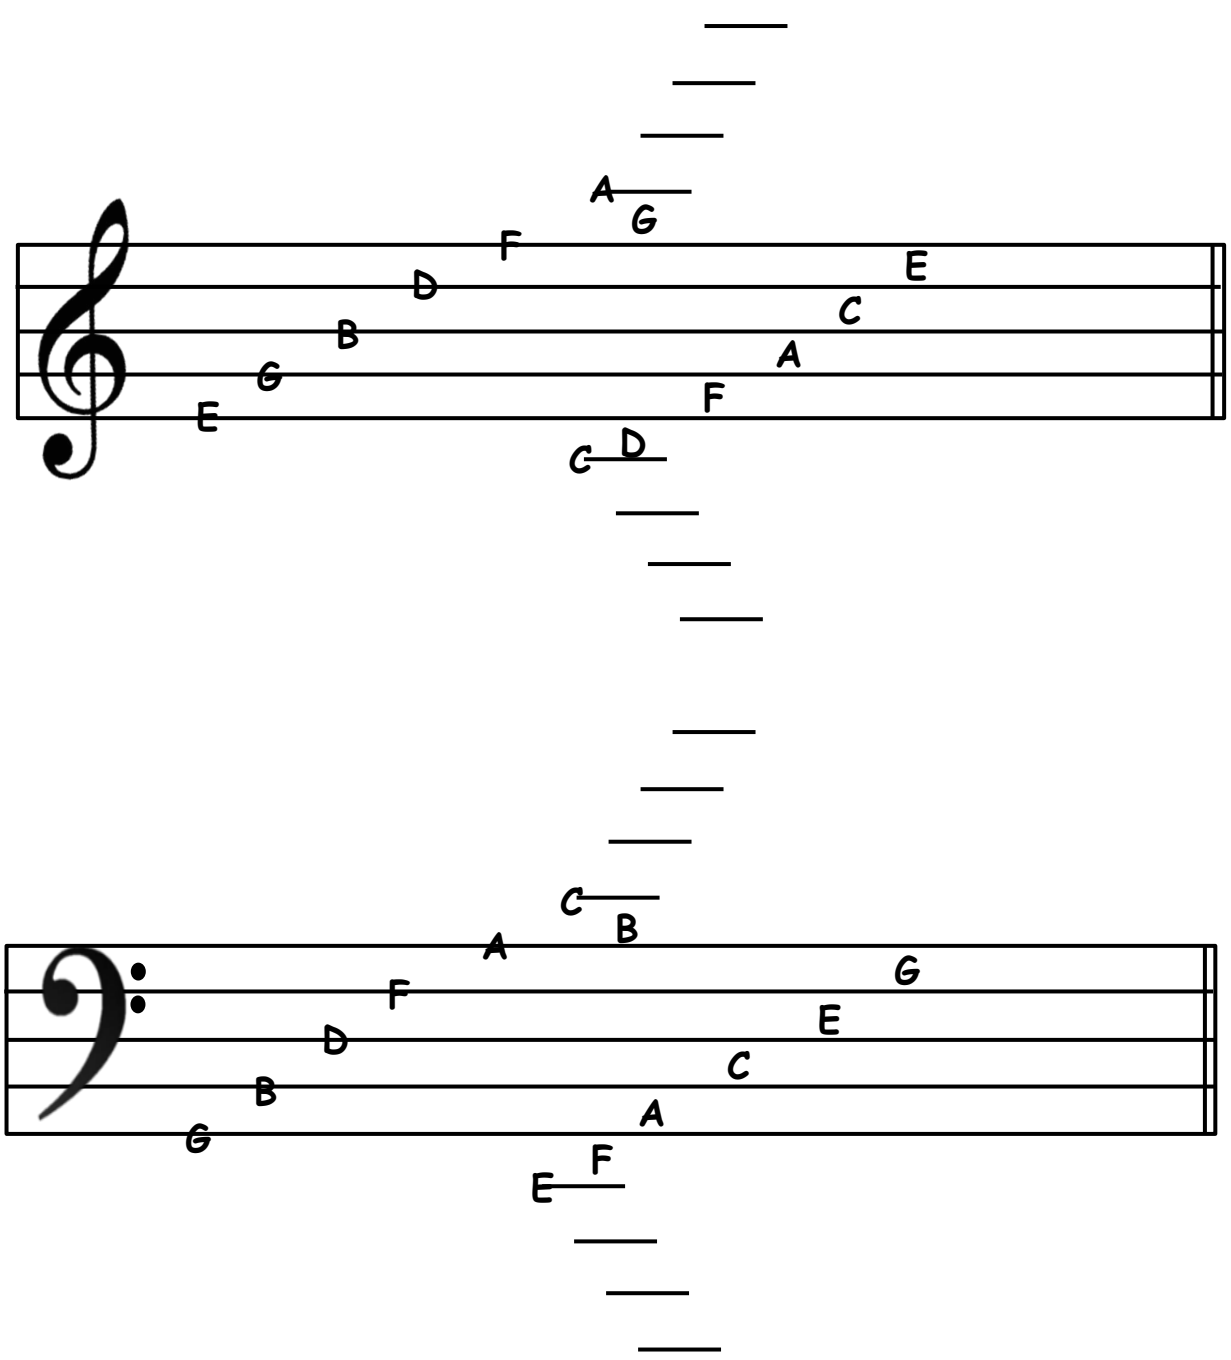

Ledger lines are short extra lines placed below or above a staff to accommodate musical notes that are higher or lower than the staff.

_____ **Ledger line above the staff**

_____ **Ledger line below the staff**

Redraw these diagrams into your manuscript and fill up the ledger lines and spaces

WEEK SIX

Date	
Topic	**MUSICAL NOTES AND THEIR VALUES**
Objectives	At the end of the lesson the students should be able to: • explain the meaning of musical notes. • identify musical notes with their values and beat duration. • explain the relationship between the musical notes.
Insight	Musical notes are used to form the musical words, phrases and sentences.
Key words/New terms	Breve, Minim, Crotchet, Quaver, Semi, Demi, Hemi and Kemi.
Application	Musicology: Most vocal music is written on with the musical notes. Music Theory: Knowing how to interpret the musical note shows the good knowledge of the subject
Summary	
Students Engagement: **i. What have I learnt?** **ii. Skills Acquired**	
My Question(s)/Evaluation	
Action goal	

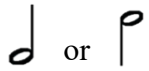

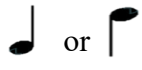

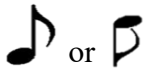

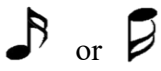

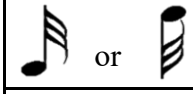

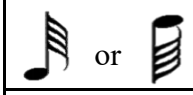

MUSICAL NOTES

Musical note is a symbol that is used to represent musical sound on a staff. The musical notes have names, values and duration (number of beats)

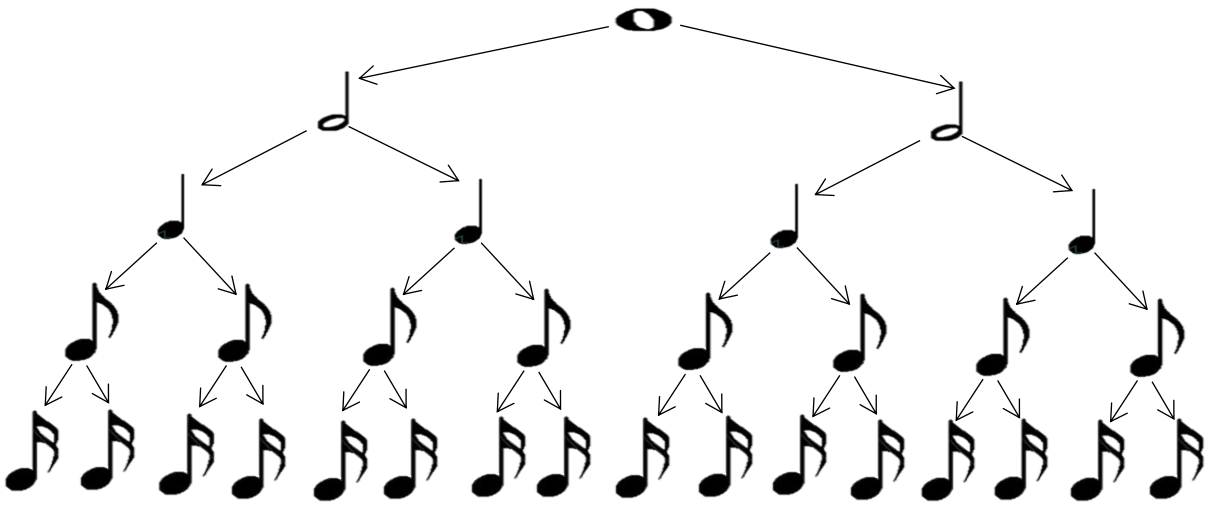

STRUCTURE OF A TYPICAL MUSICAL NOTE

A TABLE OF MUSICAL NOTES WITH THEIR VALUES AND DURATIONS

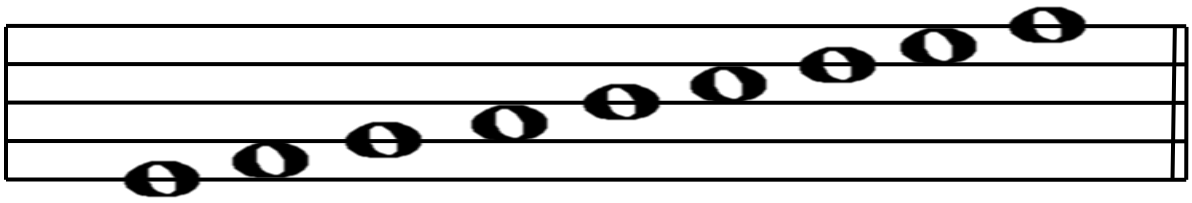

SYMBOLS	NAME OF NOTES (BRITISH)	NAME OF NOTE (AMERICAN)	VALUE OF NOTE	DURATION NO. OF BEATS
	Breve	Double Whole Note	2	8 beats
	Semibreve	Whole note	1	4 beats
	Minim	Half note	$\frac{1}{2}$	2 beats
	Crotchet	Quarter note	$\frac{1}{4}$	1 beat
	Quaver	Eighth note	$\frac{1}{8}$	$\frac{1}{2}$ beat
	Semi quaver	Sixteenth note	$\frac{1}{16}$	$\frac{1}{4}$ beat
	Demi-Semi quaver	Thirty-Second note	$\frac{1}{32}$	$\frac{1}{8}$ beat
	Hemi-Demi-Semi quaver	Sixty-fourth note	$\frac{1}{64}$	$\frac{1}{16}$ beat
	Kemi-Hemi-Demi-Semi quaver	One hundred & twenty - eighth note	$\frac{1}{128}$	$\frac{1}{32}$ beat

RELATIONSHIP BETWEEN THE MUSICAL NOTES

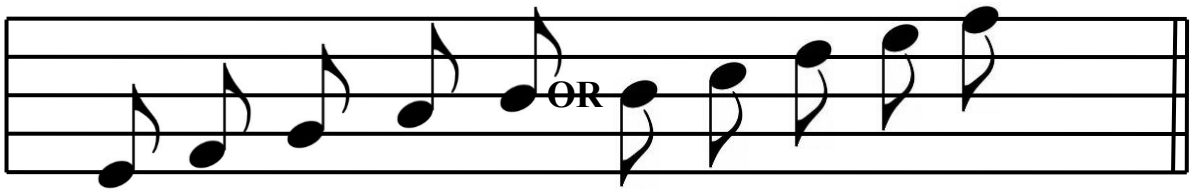

THE PROPER WAY TO WRITE MUSICAL NOTES ON A STAFF

1. **Musical note without tail and flag**

2. **Musical notes with tails and flag**

NOTE: At the middle line, the note can either face up or down

WEEK SEVEN

Date	
Topic	**CLASSIFICATION OF MUSIC**
Objectives	At the end of the lesson the students should be able to: • enumerate different kinds of music. • identify different classes of music • enumerate the Nigerian Popular Musicians
Insight	Music can either be vocal, instrumental or dance music.
Key words/New terms	Folk music, sacred, martial and secular
Application	• ***DJs***: Having the good understanding of musical genre is an advantage • ***Studio Production:*** You are able to relate better with different styles of music.
Summary	Vocal music is basically for voices but can be accompanied by instruments. Instrumental music is usually for entertainment and for relaxation Music can be sacred, popular, secular, martial etc.
Students Engagement: **i. What have I learnt?** **ii. Skills Acquired**	
My Question(s)/Evaluation	
Action goal	

CLASSIFICATION OF MUSIC

Music can be categorized into three groups:

1. ***Vocal Music:*** This refers to music for the voice. This includes anthem, hymn, chant or any song. It may or may not involve the use of instruments.

2. ***Instrumental Music:*** This refers to music for instruments only. It does not involve singing, but purely instrumental work often played for entertainment or leisure and sometimes for dancing.

3. ***Dance Music:*** This music involves playing of instrument for the purpose of dance. It may also involve singing.

CLASSIFICATION OF MUSIC
Broadly, music can be classified as follows;

a. Popular Music
This refers to music that is known and played everywhere around the world. Examples of popular music include; reggae, rock, jazz, rhythms & blues, afro beat, high-life, pop, calypso etc. Some examples of Nigerian popular musicians include: Davido, Wizkid, Olamide, King Sunny Ade, Chief Ebenezer Obey, Simi, Tiwa Savage, Yemi Alade, Alhaji Wasiu Ayinde Marshal, Pasuma Wonder etc.

b. Folk Music
This refers to traditional music that is common among a particular people is a community and it's passed from one generation to another generation. Folk songs are used during festivals, games, to give a warning or an advise. Examples; Wherever you go, Iya ni wura, Labe igi Orombo, Nda na to, Dan malio etc.

c. Sacred Music
This refers to music used for religious worships in places like church, mosque etc. The direct opposite of sacred music is ***Secular Music***. These are songs that are not for religious purposes.

d. Classical Music
This refers to standard music that is composed by learned musician and are written in musical language. It originated from western countries like Germany, Austria, Italy, France and England. Some great master composers of Classical music are Handel, Bach, Mozart, Haydn, Schubert, Debussy, Chopin, Vivaldi, Beethoven and so on.

e. Martial Music

This is military music, played by the military or paramilitary bands for the purpose of parades or salutations.

f. Art Music

This refers to musical composition by trained composer, who studied music to the highest level and whose work is accepted as standard.

Personal Exercises

1. List 10 folk songs that we do in Nigeria.
2. List 15 male popular from Nigeria, both old and current and the title of their songs.
3. List 10 female popular from Nigeria, both old and current and the title of their songs.

WEEK EIGHT

Date	
Topic	**USES OF MUSIC**
Objectives	At the end of the lesson the students should be able to: • enumerate different uses of music.
Insight	Music is very useful in different areas and for different reasons.
Key words/New terms	Lullaby, Therapeutic, Dirge, Jingle etc
Application	• ***Psychology***: Using music to help depressed patients • ***Neurology***: Using music to help mental patients • ***Teaching***: Using music to help students understand.
Summary	The uses of music are so many and very important.
Students Engagement: **i. What have I learnt?** **ii. Skills Acquired**	
My Question(s)/Evaluation	
Action goal	

USES OF MUSIC

Music is such an important tool for communication. It is food for the soul and also a universal language. These means that everyone responds to music one way and the other. In film making, religious practice, medicine, education etc. music plays very vital role in all these areas of endeavour.

Music can be useful in the following ways:

1. Music is used for entertainment.
2. Music is used for relaxation.
3. Music is used during events or functions
4. Music is used to generate income.
5. Music is used for therapeutic purposes.
6. Music is used during exercises or aerobics.
7. Music is used during festivals.
8. Music is used for the purpose of passing information. For example, a jingle is a type of music used to advertise goods and services
9. Music is used in places of worship.
10. Music is used as a career path or vocation.
11. Music is used for cultural purposes.
12. Music is used for learning.
13. Music can be used as an identity of a people or a country. For instance, National Anthem is for national identity.
14. Music is used for games.
15. Music is used for communication.
16. Music can be used to console, comfort or encourage someone. A dirge is a type of music that is done in a sad or sorrowful situation.
17. Music is used to calm babies. Such music is called Lullaby.
18. Musical sounds can be used to tame some animals.

Personal Exercise

List two uses of music in the following area:

i. Education
ii. Medicine
iii. Social Life
iv. Communication
v. Care for children
vi. Religion
vii. Culture.

WEEK NINE

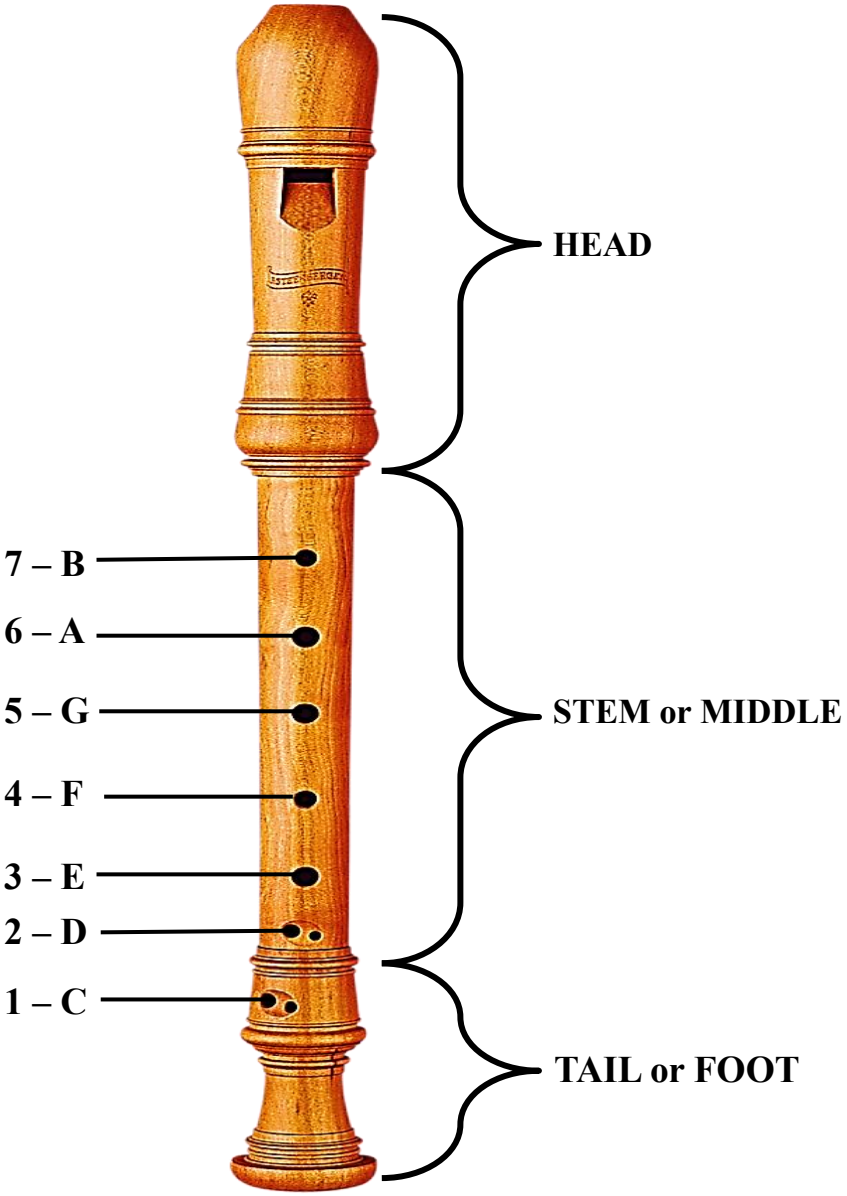

Date	
Topic	**INTRODUCTION TO RECORDER PLAYING**
Objectives	At the end of the lesson the students should be able to: • explain what a recorder is. • identify the major letter names (keys) on a recorder.
Insight	Recorder is a woodwind instrument.
Key words/New terms	Descant, Woodwind and Bamboo
Application	• ***Musicians***: Playing a recorder can help in playing • ***Music Technology:*** How to make musical instruments from wood.
Summary	Recorder is a woodwind instrument that has a family of descant recorder, alto recorder, tenor recorder and baritone recorder.
Students Engagement: **i. What have I learnt?** **ii. Skills Acquired**	
My Question(s)/Evaluation	
Action goal	

INTRODUCTION TO RECORDER PLAYING

A recorder is a woodwind musical instrument that can be made from wood or plastic. There are four types of recorders

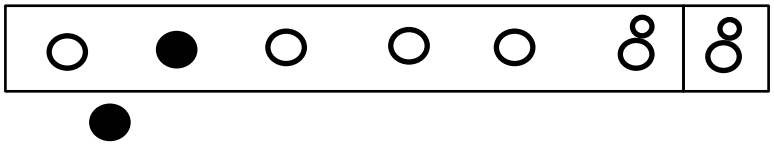

- Descant or Soprano Recorder
- Alto Recorder
- Tenor Recorder
- Baritone Recorder

PARTS OF A RECORDER

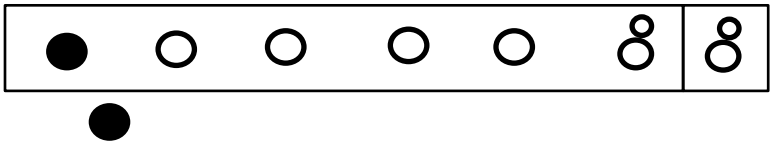

HOW TO PLAY ALL THE MAJOR KEYS ON A RECORDER
